## **Advice on how to order:**

Please make sure that you write the names clearly, each one in its own space below. A hyphenated name like Mary-Jo is treated as two separate names – in this case, two names of up to five letters each. All names are produced in Title Case (i.e. an initial capital letter followed by lower-case letters), even if you print the names in upper case on this form. Don't forget to indicate which colour you want each name to be!
